Reference

We are delighted to inform you, that GiGi Cargo has the privilege of working with TransAuditors.eu from Wrocław.

Our cooperation began in 2016 and continues to the present day.

As part of an agreement concluded between our companies, we managed to bring improvement to many areas within our company and to estimate the risk in our current operations.

Additionally, from the point of view of our team of drivers, we implemented very interesting solutions in many areas, while collecting experiences of many of our employees from their previous jobs.

TransAuditor.eu, thanks to the professionalism of its employees, creates favorable conditions for amazing cooperation. Mutual assistance and readiness to face challenges make cooperation with TransAuditors.eu a pure pleasure. Trouble-free communication is another advantage offered by this company. Moreover, the people working there are always willing to take on challenges in crisis situations.
