

TransAuditors.eu Sp. z o.o.  
Wysoka, ul. Chabrowa 4  
52-200 Wrocław 65

## REFERENCES

We have started cooperation with the TransAuditors.eu team, because we were looking for experts proficient at the road transport industry to audit our own supply chain, and in particular the operating model of our direct subcontractors.

TransAuditors' advisers conducted an identification audit in our company efficiently.

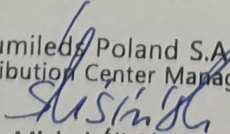

The audit covered our five LSP (Logistics Services Provider ), as well as a number of factual carriers. As a result we have received post-audit reports containing valuable recommendations and solutions.

Thanks to the cooperation with TransAuditors.eu, we got familiar with the actual scope of insurance coverage of our subcontractors, their business models, as well as the analysis of factors that may affect the operational efficiency and cost effectiveness of the current state.

As a result, our supply chain has become much more secure.

With full conviction I recommend the professionals from TransAuditors.eu to cooperate with.
